Metalubs X WF - Grease and lubricant treatment

Domain Metalubs X WF is a high pressure grease recommended for the lubrication of vehicles as well as for industrial, construction and agricultural machinery, even when used under difficult conditions (shock loads, high humidity, salt water).

Appearance

Physical State:	liquid
Color:	white/yellowish
Odor:	characteristic

Safety-related data

Flashpoint:	190°C
Drop point:	cca. 150°C
Vapor pressure at 20°C:	< 0.1 mbar
Density at 15°C:	1 g/cm ³
NLGI - Class:	2
Water solubility:	insoluble at 20°C
pH-value:	7 to 9
Kinematic viscosity at 40°C	850 mm ² /s
Name:	KP 2 P
Penetration:	265-295 0.1 mm
Oxidizing properties:	Not oxidizing
Auto-ignition temperature:	Not self-igniting
Melting point/melting range:	Not specified
Solubility in other solvents:	Well soluble in most oils

The products are made in Germany for Metalubs LTD, who is responsible and offers warranty for the distributed products.
